DIC Australia operates a modern printing ink manufacturing facility located at our Auburn site within NSW. The facility operates under the existing EPA licence number 2095. This information is published as a requirement under the obligations introduced by the *Protection of the Environment Legislation Amendment Act 2011*(POELA Act)

A copy of this licence & Address details can be found below:

[DIC Australia EPA licence 2095](#)

Address Details
DIC Australia Pty LTD
323 Chisholm Road
Auburn
Sydney
PC 2144

The monitoring method employed for the calculations is an agreed method with the EPA using mass balance calculations. Under our licence conditions we are required to report the total VOC's emitted during summer periods (Dec to Feb) and for the full year (27 July – 26July).

The reporting period is yearly, the emissions are measured as Kg's, and there are significant cost penalties associated in emissions exceeding the amount allowable within our manufacturing volumes. DIC Australia pays this licence under a fee based activity with total production volumes exceeding 15,000T/pa.

The results for the monitoring are below

Year	VOC's Fee Rate Threshold Summer	VOC's emitted Summer Dec - Feb	VOC's Fee Rate Threshold Full year	VOC's emitted Full Year 26 July - 27 July
Results 2011 - 2012	9,273.3kg	6,794.9kg	40,291.6kg	45,799.6kg
Results 2012 - 2013	9,742.7kg	8,762.0kg	43,001.7kg	42,444.4kg
Results 2013 - 2014	7,446.2kg	8,725.0kg	34,922.0kg	30,066.0kg
Results 2014 - 2015	7,482.1kg	5,855.1kg	30,765.4kg	25,468.0kg
